

## Govt. P.G. College for Women Sector 14 Panchkula

A series of extension lectures were organised in the department of zoology on wide range of topics for BSc genetics students. Ms. Deepali Verma (student alumna) was the resource person on the occasion. The extension lectures were given on 10th and 11th October 2023 on various relevant topics that is Transposable genetic elements, Gene mutation, Self incompatibility and Hybridization. Ms. Deepali presented the topics in very interesting and lucid way, addressing different queries by the students. All the students got extremely benefited with her extensive knowledge and engrossing session.
