LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. Home Science II Year (3rd Semester)

Subject/ Paper: Basics of Clothing Construction and Apparel Designing (301) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Importance of apparel designing & its role in personality development. Application of elements of arts and principles of designs in clothing construction	PPT, Group Learning and Teaching	Acquire the knowledge of application of elements of arts and principles of design in clothing construction and techniques of dress designing.	
2.	Sept	Types of designs: Structural & decorative. Wardrobe Planning: Principles, steps involved and Importance. fabric construction : Weaving : Parts and function of loom .Types of weaves(plain, twill and their variation, satin and sateen weave.) Knitting : Types, characteristics, stitches used in knitting Non-woven fabrics: Felting, bonding, netting, braiding, laces	PPT, Group Learning and Teaching	Students get aware about the fabric construction techniques and Non-woven fabrics.	Assign. -1 and Test
3.	Oct	Anthropometry: Definition, Importance and equipment required . Types of anthropometric measurements (vertical, horizontal, girth/round measurement) . Care to be taken while taking body measurement Methods of developing design/ pattern: Drafting: Drafting tools, techniques, advantages and disadvantages of drafting. Paper pattern: Types, principles, advantages and disadvantages of paper pattern. Draping: Techniques of draping and advantages and disadvantages of draping.	PPT, Group Learning and Teaching	Gains information about the methods of developing design.	Assign. -2 and Test
4.	Nov	Preparation of fabric: Preshrinking, Straightening the grain, Pressing, Identify Face and back, Square up, Marking, Pinning, types of markings, Methods and Precautions for cutting, Sewing & Finishing Fashion: Concept, Importance and terminology {Fad, style, classic, silhouette vogue, haute couture, niche, brand}. Fashion cycle and fashion favouring and retarding factors. Figure Analysis and fitting: Figure types, Common fitting problems, reason for poor fitting and their remedies.	PPT, Group Learning and Teaching	Students understand the concept of fashion, figure types and fitting.	Revision and Tests

5.	Dec	Revision and Tests			
----	-----	--------------------	--	--	--

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. Home Science I Year (1st Semester)

Subject/ Paper: Home and Interior Decor (101) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Objectives of interior decoration, importance of elements of art in interior decoration. Types of design: structural and decorative and its application.	PPT, Group Learning and Teaching	To encourage experimentation with traditional and contemporary materials, technical processes and methods	
2.	Sept	Elements of art: line, form, texture, light, pattern, colour, space and its application in interior decoration. Principles of design: Rhythm, balance, proportion, emphasis, harmony and its application in interior decoration. Colour: Properties of colour, psychological effect of colour, color schemes and its application in the interior of a house. Lighting: a) Types and requirement for various activities b) Lighting fixtures in the home	PPT, Group Learning and Teaching	To impart knowledge and skills for making different floor plans for different income groups.	Assign. -1 and Test
3.	Oct	Table setting and table manners: Informal and formal table settings (buffet style, Indian style restaurant style, Cafe style) Furniture: Types of furniture, furniture arrangement for different areas (bedroom, drawing room, dining room, kitchen and its types) Factors affecting the selection and purchase of furniture, care and maintenance of furniture.	PPT, Group Learning and Teaching	To develop skills, abilities & knowledge that enable artistic production & creative problem solving skills.	Assign. -2 and Test

4.	Nov	Flower arrangement: Different types of Flower arrangement. Accessories used and points to be considered for flower arrangement. Flower decoration for different occasions Furnishings: a) Soft Furnishing (curtains, cushions, pillow and material for upholstered furniture) b) Wall treatment and its types c) Window treatment and decoration d) Types of floor coverings	PPT, Group Learning and Teaching	To develop and apply concepts of art & design to create aesthetically pleasing interiors.	Revision and Tests
5.	Dec	Revision and Tests			

❖ **Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.**

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: NON Home Science (1st Semester)

Subject/ Paper: Basics of Home Science I (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): MDC-1

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Introduction to Home science: Concept and its job opportunities Basic terminology: Food, nutrients, nutrition, health, balanced diet, malnutrition (over & under nutrition),	PPT, Group Learning and Teaching	To acquire knowledge of various concepts of food & nutrition science.	
2.	Sept	Classification and Function of Food Carbohydrate, Protein, Fat: Source, Function & effect of deficiency Definition and Classification and uses of Textile fibers: (Cotton, Jute, Wool, Silk, Rayon, Nylon and Polyester). Yarn: Definition and classification (simple, novelty and complex). Sewing machine: Parts and Functions, Care and Maintenance	PPT, Group Learning and Teaching	To enable the students to have basic knowledge of textiles fibres, yarn and various stitches	Assign. -1 and Test
3.	Oct	Human Growth and Development: Meaning and concept Factors influencing growth & development Developmental milestones of infancy (0-2 years) and early childhood (3-6 years): • Physical and motor development • Social and emotional development • Cognitive and language development	PPT, Group Learning and Teaching	To have knowledge of and basic concepts related to human development	Assign. -2 and Test
4.	Nov	Resource Management - Definition and Importance. Process of time, energy and money management. Extension education: meaning and importance Qualities of an extension worker	PPT, Group Learning and Teaching	To have knowledge of family resource Management and extension education	Revision and Tests
5.	Dec	Revision and Tests			

❖ **Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.**

Subject/ Paper: Basics of Home Science III (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): MDC-3

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Meal planning: its meaning & principles; Planning diet for school going children & adolescents; Food preservation; principles and home scale methods	PPT, Group Learning and Teaching	To understand the concept of Meal planning.	
2.	Sept	Traditional embroideries of India: Chikenkari, Phulkari, Kantha, Chamba and Kasuti. Soaps and Detergents, Starches, Blues and Bleaches Stain removal-Classification of Stains, Methods of Removing different types of Stain	PPT, Group Learning and Teaching	To impart knowledge about traditional embroideries of India and stain removal	Assign. -1 and Test
3.	Oct	Physical changes, health problems and adjustments in old age Guidance: meaning and its types Skills and characteristics of effective counselling	PPT, Group Learning and Teaching	To inculcate the skills of effective guidance & counselling	Assign. -2 and Test
4.	Nov	Various color schemes and its application. Table etiquettes and Table setting – formal and informal Communication-meaning, importance and types .Major nutritional problems in India; PEM, IDD, Anaemia.	PPT, Group Learning and Teaching	To obtain knowledge about dietary management of diseases and modifications of normal diet for therapeutic purposes and preservation.	Revision and Tests
5.	Dec	Revision and Tests			

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. III Year (5th Semester)

Subject/ Paper: Basics of clothing construction and apparel designing (502) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Traditional embroideries of India: list of different embroideries associated with various states of India. Origin, types, fabric used, motifs, color combinations, stitches and thread used for following: Phulkari, Kantha, Chikenkari, Chamba, Kashida, Kasuti.	PPT, Group Learning and Teaching	To get acquainted with traditional embroideries of different States of India.	
2.	Sept	Traditional textiles: list of different textiles associated with various states of India. Origin, manufacturing process, color combinations and motifs used for following: Printed textiles– Dabu, Ajrakh(Gujrat) Painted Textiles: Kalamkari(AP), Madhubani(Bihar) Resist Dyed textiles: Patola of Gujarat; Leheriya/ Bandhani of Rajasthan.	PPT, Group Learning and Teaching	To gain knowledge about traditional textiles of India	Assign. -1 and Test
3.	Oct	Woven textiles:Origin, manufacturing process, color combinations and motifs used for following · Brocade(UP) · Kanjivaram(TN) · Maheshwari(MP) · Chanderi(MP) · Mulmul (Dhaka) Floor coverings - Carpet, rugs and durries	PPT, Group Learning and Teaching	To understand the manufacturing process of woven textiles	Assign. -2 and Test
4.	Nov	Sustainable textiles: definition, principles and merits of sustainable fibers (bamboo, banana, nettle and pineapple Silk). Care labelling of textiles	PPT, Group Learning and Teaching	To know the importance and advantages of sustainable Fibres and care labels used for clothing and textiles.	Revision and Tests

5.	Dec	Revision and Tests

Class: M.Sc. (Human Development)

Semester: I

Paper Code:I

Subject: Theories of Human Development

Name of Month	Topic	Teaching learning Strategy	Learning Outcomes
August	1. Meaning and significance of theories of Human Development.	Individual learning self Learning Peer Group Learning	students will learn different theories of development in stages of development
	2. Freud's psychoanalytic theory, current status. 3. Neo-Freudians-Alfred Adler, Carl Gustav Jung, Eric Erickson. • Class test		
September	4. Learning theory: Pavlov, Skinner, Current Status of learning theory. 5. Language development theory of Chomsky. • Class test		
October	5. Cognitive Development theory. Piaget's theory, Neo-Piagetian studies 6. Social learning theory-Bandura's theory 7. Lewin's field theory. • Class test		
November	8. Theories of personality. Vygotsky, Roger's Self Theory. 9. Ecological theory Urie Bronfenbrenner. • Revision test		

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

Year: 2026-27

Name of Teacher: Dr. (Mrs.) Latesh

Class: B.Sc. (Home Science)

Semester: I

Paper Code:102

Subject: Fundamentals of clothing and textiles Type of course: Major

Name of Month	Topic	Teaching learning Strategy	Learning Outcomes
August	Importance & scope of clothing & textile.	Individual learning self Learning Peer Group Learning Project learning	students will learn different types of finer Yarn construction Textile processes
September	- Basic Terminology used for clothing and textile: Clothing: bias grainline, grain, dart, notches, gathers, fasteners, contours, interfacing, placket,seam allowance. - Textile: fiber, filament, yarn, yarn count, thread count, cord,twist,crimp,tensile strength etc - Parts of the basic sewing machine, its care, maintenance & functioning. - Study of different types of sewing machines,their use in the garment industry. - Class test		
October	- Factors affecting selection of clothing: Environmental, social, psychological and Physiological. - Clothing requirements of different age groups(infants, toddlers, preschoolers and elementary school children, Pregnant lady and Lactating mother) - Comparison of tailor-made, readymade and homemade garments. - Class test		
November	- Textile Fiber: Definition & Classification of fiber - Difference between natural & man made fibers - Manufacturing & properties of following: Natural fiber: Cotton, wool, silk - Man made: Nylon, rayon & polyester - Class test		

December	• Yarn: Definition and process of yarn making (s twist and z twist) • Basic principles of yarn making (mechanical, chemical, spinning: wet, dry & melt) • Classification and types; Simple, filament, spun, novelty, complex yarns. • Properties of yarn: Elasticity, plasticity, strength & elongation • Revision test		

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

Class: B.Sc. (Home Science)

Semester: I

Paper Code: 104

Subject: Consumer Education Type of course: Minor

Name of Month	Topic	Teaching learning Strategy	Learning Outcomes
August	• Factors affecting requirement of household equipment.	Individual learning self Learning Peer Group Learning Project based learning	students will be educated about consumer rights duties, consumer complaint process Different types consumer court
September	• Precautions to be used while using major electrical equipment. • Consumer: Definition and role of consumer in market • Class test		
October	• Consumer education : Meaning & importance • Consumer Rights & consumer responsibilities • Problems of consumers • Consumer Protection Act : Meaning and importance. • Class test		
November	• Consumer protection Agencies: Consumer Education and Research Centre (CERC), Federation of consumer organization in Tamil Nadu (FEDCOT) • Class test		
December	• Citizen consumer and civil action group, Consumer guidance		

	society of India, (CGSI), Consumer unity of trust society • Revision test

Class: B.Sc. (Home Science)

Semester: III

Paper Code: 302

Subject: Food Science Type of Course: Major

Name of Month	Topic	Teaching learning Strategy	Learning Outcomes
August	Food - definition & classification of food Functions of Food: Physiological, psychological, social & emotional	Individual learning self Learning Peer Group Learning Project learning	students will learn different food groups their functions Classification of
	Food Groups and food guide pyramid along with its importance. Basic food groups - composition and nutritional contributions of the following food groups: a) Cereals b) Pulses c) Fruits and Vegetables		
September	Composition and nutritional contributions of the following food groups: a) Milk and Milk Products b) Nuts and Oilseeds c) Meat, Fish, Poultry & Egg d) Major spices of India & Sugar and Jaggery		

October	Definition, objectives and principles of cooking of food. Different methods of cooking- their merits and demerits. A. Moist heat method: Boiling, simmering, stewing, pressure cooking, poaching & blanching B. Dry heat method: Roasting, baking, toasting, steaming, grilling, frying C. Other methods of cooking: Microwave cooking & solar cooking		food Their nutritional value composition
November	Effect on cooking and heat on nutritive values of foods. improving nutritional quality of foods using methods: • Germination: Method, advantages & disadvantages • Fermentation: Method, advantages & disadvantages • Supplementation : Methods & various supplementary foods • Fortification : Meaning & importance • Enrichment		

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

Name of	Topic	Teaching learning	Learning Outcomes
----------------	--------------	--------------------------	--------------------------

Month		Strategy	
August	Definition of hygiene, types of hygiene personal, environmental, domestic and food hygiene	Individual learning self Learning Peer Group Learning Project learning Group learning	students will learn different systems their functions structure Hygiene its types Immunity Vaccination Schedule
	Physical health, factors affecting health, eating and drinking habits, body posture, sleep, exercise and games. Cleanliness of body and cleanliness of house. Definition of immunity, types of immunity and vaccination schedule		
September	Causes, symptoms & prevention or control of following diseases: a) Diseases spread by insects: Malaria & Dengue; b) Diseases spread by ingestion: Typhoid, diarrhea & Dysentery c) Diseases spread by droplet infection: T. B. & Chickenpox d) sexually transmitted disease: AIDS		
October	Animal Cell : Structure & functions of cell organelle; Cell division: Mitosis & meiosis(in brief); Digestive System – Structure and functions of various parts of the alimentary canal; Digestive glands – Salivary Glands, liver, pancreas, gastric glands, intestinal glands.		
November	Circulatory system – Structure and functions of heart, functions of blood, blood composition & blood		

	groups Excretory system – Structure and functions of lungs, & skin Endocrine system – Structure and functions of endocrine glands– pituitary, thyroid, Parathyroid & adrenal glands

ODDSEMESTER**

Name of Teacher: Pooja Girotra

Designation: Extension Lecturer

Class: M.Sc. Mathematics-I

Subject/ Paper: Theory of Ordinary
Differential Equation (M24-MAT-103)

S. No.	Month	Topics to be covered	Teaching Learning Strategy
1.	August	Existence and Uniqueness of Solutions: Existence of solutions; Initial value problem, e-approximate solution'] Equicontinuous set of functions, Ascoli Lemma, Cauchy-Peano existence theorem and its corollary Uniqueness of solutions; Lipschitz condition, Gronwall's inequality, Inequality involving approximate solutions, Method of successive approximations, Picard-Lindelf theorem. Maximal interval of existence, Extension Continuation of solutions, theorem.	Learning through Problem Solving Group-Learning & Teaching
2.	September	[theory of linear differential equations: Linear Differential Equation kflE) of order n, Basic theory of homogeneous linear equation, fWronskian theory: Definition, necessary and sufficient condition for linear	Learning through Problem Solving Group-Learning & Teaching

		dependence and linear independence of solutions of homogeneous [-DE, Abel's Identity, Fundamental sets, More Wronskian theory, Reduction of order. Non-homogeneous linear differential equation of order n: Variation of parameters. Adjoint equations, Lagrange's Identity, Green's formula, Self adjoint equation of second order. Linear differential equation of order n with constant coefficients	
3.	October	Linear second order equations: Preliminaries, Superposition principle Riccati's equation, Pruffer transformation Oscillations of second order differential equations: Zero of a solution oscillatory and non-oscillatory equations, Abel's formula, Common zeros of solutions and their linear dependence, Sturm separation theorem, Sturm fundamental comparison theorem and its corollaries Elementary linear oscillations, Comparison theorem of Hille-Wintner Oscillations.	1. Learning through Problem Solving 2. Group-Learning & Teaching
4.	November	Second order boundary value problems (BVP): Linear problems periodic boundary conditions, regular linear BVP, singular linear BVP, non-linear BVP, Sturm-Liouville BVP; Definition, Characteristic values Characteristic functions. Orthogonality of characteristic functions Green's functions:	1. Learning through Problem Solving 2. Group-Learning & Teaching

		Definition and Properties. Applications of boundary problems. Picard's theorem

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Dr. Suman Bhambu

Designation: Professor

Class: M.Sc. Human Development II Year (3rd Semester)

Subject/ Paper: Child and Family Guidance Counselling and Psycho therapeutic interventions (301)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major (NEP)

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Nature and Scope of Guidance -Concept, Definition and Scope -Nature, Principles and Need of Guidance -Areas of Guidance: -Educational – Concept, Definition, Characteristics, Principles etc. - Vocational – Concept, Definition, Characteristics, Principles etc., -Personal – Concept, Definition, Characteristics, Principles etc., -Group Guidance- Different Techniques used	PPT, Group Learning and Teaching	Understand the concept, principles, scope and practice of guidance	
2.	Sept	- Nature and Scope of counseling -Meaning, Areas, Scope of Counseling -Needs, Aims and Principles of Counseling -Various Approaches to Counseling: Humanistic approaches- Roger’s Client centered approach, Gestalt approach Psychoanalytic -Psycho dynamic approaches by Sigmund Freud, Carl Jung, Alfred Adler -Behaviorist approach- Skinner and Bandura -Eclectic approach II - Stages of Human Development and Areas of Guidance, counseling and therapy. -Problems of Childhood: remedial measures, techniques, therapies used -Problems of Adolescence: remedial measures, techniques, therapies used -Problems of Adulthood: remedial measures, techniques, therapies used -Problems of Aged: remedial measures, techniques, therapies used	PPT, Group Learning and Teaching	Comprehend the task of identifying and assessing at risk children and providing services to them.	Assign. -1 and Test

3.	Oct	• Types of Therapy -Psychotherapy: Concept, Definition, Types, Application etc., -Play therapy: Concept, Definition, Types, Application etc., - Behavior modification therapy: Concept, Definition, Types, Application etc., -Any other therapy: Music, Dance, Drama, Art etc. • Counseling Special Groups Meaning, Concept, Characteristics, Needs, Support network and counselling processes for: -Children suffering from Child Abuse -Children in Divorce Families - Children in Step Families -Children in Single Parent Families -Children of Street -Children in Alcoholic Families	PPT, Group Learning and Teaching	Understand the problems and provide appropriate support and therapy in different stages of Life	Assign. -2 and Test
4.	Nov	• Counseling Exceptional Children: Meaning, Concept, Characteristics, Needs, Support network and counselling processes for: -Gifted Children - Children with Emotional and Behavior Disorders - Learning Disabled Child -Attention Deficit Hyperactivity Disorder -Intellectually Challenged Children -Physically challenged Children. • Fundamental counseling-Skills -The Client Counselor Relationship: Meaning, Types, Impact, Importance -Qualities and skills of a counselor: Required for success -Counsellors objectivity/subjectivity: Meaning, Importance eg. - Emotional involvement and limits: Permissible limits and importance	PPT, Group Learning and Teaching	Develop skills for providing counseling and therapeutic services.	Revision and Tests

5.	Dec	• The counseling Process -First contact, Assessment, Intervention, Closure, Follow up -Ethics in counseling involved -Need for Ethical standards - Ethical, Codes and Guidelines- Rights of Clients, Dimensions of Confidentiality -Dual relationships in counseling Practices: Meaning, Impact, Importance • Revision and Tests		Understand the counselling process , ethics , codes and rights.

Name of Teacher: Dr. Suman Bhambu

Designation: Professor

Class: M.Sc. Human Development II Year (3rd Semester)

Subject/ Paper: Communication Processes and Techniques (304)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major (NEP)

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	- Communication -Concept, Process, Scope and Usages of communication - Dissemination of information -Meaning, nature, types - Factors affecting -Appropriate training, motivating extension workers, approach to extension agents etc.,	PPT, Group Learning and Teaching	Understand the process of communication and its dissemination.	
2.	Sept	- Approaches to communication -Individual approach: Meaning, Methods, Usage, Impact etc., -Group approach: Meaning, Methods, Usage, Impact etc., -Mass approach: Meaning, Methods, Usage, Impact etc., -Motivating approach: Meaning, Methods, Usage, Impact etc. .Major Models of Communication in brief: -Aristotle's Model -Lass well's Model -Shannon and Weaver's Model - Schramm's Model -Berlo's SMCR Model -Westley and MacLean's Model -Dance's Helical Model -Barnlund's Transactional Model -Rogers' Diffusion of Innovation Model -Osgood-Schramm Model	PPT, Group Learning and Teaching	Gain insight into various approaches used for communication.	Assign. -1 and Test
3.	Oct	- Communication and extension methods -Different media: Their characteristics, Types, Usage etc., -Selection of teaching tools: Characteristics, Types, etc. - Traditional and Mass Media in Education & Communication -Print Media: Newspapers, Magazines, Pamphlets – Layout, Readability & Visuals -Audio Media: Radio, Podcasts, Community Radio – Structure and Scripting -Visual Media: Television, Films, Documentaries – Features and Uses -Folk and Traditional Media: Puppetry, Songs, Street Theatre, Dance Forms -Media Literacy and Media Ethics -Role of Mass Media in Social Change, Education, and Policy Awarenesss	PPT, Group Learning and Teaching	Gain knowledge about the various extension techniques used for good communication.	Assign. -2 and Test

4.	Nov	New and Emerging Communication Technologies -ICT in Education and Research (ICT: Meaning, Scope, Relevance) - Use of Internet, Email, Mobile, Whatsapp, Webinars, and Virtual Meetings (Zoom, Google Meet) -E-learning, MOOCs, SWAYAM, YouTube Channels, Educational Portals -Social Media Platforms (Facebook, Twitter/X, Instagram, Blogs) in Communication -Multimedia Presentations – PowerPoint, Canva, Info graphics, Podcasts -Cyber Security, Plagiarism, and Digital Citizenship -Artificial Intelligence and Virtual Reality in Communication	PPT, Group Learning and Teaching	Know about the latest communication technologies used for research purpose and all..	Revision and Tests
5.	Dec	- Communication for Development and Extension -Concept and Need of Development Communication -Communication Approaches: Participatory, Diffusion of Innovation, Behavior Change -Role of Communication in Health, Nutrition, Family Welfare, Child Development & Education -Communication Strategies in Community Work and Outreach -Audio-Visual Aids: Classification, Characteristics, and Selection for Rural/Urban Settings -Media Mix and Message Design for Extension Work -Evaluation and Feedback Mechanisms in Communication - Revision and Tests

Subject/ Paper: Family Ecology and Human Development (309)
Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major (NEP)

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	.Family relationships -Family as a social system -Socialization within the family -Models of parenting	PPT, Group Learning and Teaching	Gain knowledge about family relationships	
2.	Sept	.Parent child relationships -Functional and dysfunctional dyads -Family cohesion -Conflict and family disorganization – impact on parenting -Children as family agents - Children and marital life -Child abuse -Bidirectionality in parent child relations -Family interactions and delinquency - Improving family communication and interpersonal relations	PPT, Group Learning and Teaching	Gain knowledge about parent child relationships, child abuse , children and marital life	Assign. -1 and Test
3.	Oct	- Family under transition -Family transitions -Change and continuity over life cycle -Needs and problems of families at different developmental stages -Impact of social change on family -Changing family patterns in India -Religion and family - Family social class and ethnic variations in child rearing - Family stressors and resilience -Family as an institution under stress -Family crisis -Poverty and children -Stressors and family relations - with special reference to family disruption, sickness, divorce, substance abuse and disability -Stress Process Model -Family's adaptation to stress	PPT, Group Learning and Teaching	To impart knowledge about family transitions and communication.	Assign. -2 and Test
4.	Nov	Family resilience and protective factors -Promotion of family resilience -Family environment and social support as a source of risk and resilience for vulnerable children/youth -Inter-generational family dynamics in management of family conflicts and negative patterns	PPT, Group Learning and Teaching	To aware students about family stressors and protective factors.	Revision and Tests

5.	Dec	- Impact of consumerism, emigration and multiculturalism on families -Impact of consumerism on rural families -Impact of consumerism on urban families -Impact of emigration on families -Impact of multiculturalism on families -Two culture children and their psycho-social dilemmas -Contemporary issues related to families - Revision and Tests		To know about impact of emigration and multiculturalism on families.
