LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. Home Science II Year (3rd Semester)

Subject/ Paper: Basics of Clothing Construction and Apparel Designing (301) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Importance of apparel designing & its role in personality development. Application of elements of arts and principles of designs in clothing construction	PPT, Group Learning and Teaching	Acquire the knowledge of application of elements of arts and principles of design in clothing construction and techniques of dress designing.	
2.	Sept	Types of designs: Structural & decorative. Wardrobe Planning: Principles, steps involved and Importance. fabric construction : Weaving : Parts and function of loom .Types of weaves(plain, twill and their variation, satin and sateen weave.) Knitting : Types, characteristics, stitches used in knitting Non-woven fabrics: Felting, bonding, netting, braiding, laces	PPT, Group Learning and Teaching	Students get aware about the fabric construction techniques and Non-woven fabrics.	Assign. -1 and Test
3.	Oct	Anthropometry: Definition, Importance and equipment required . Types of anthropometric measurements (vertical, horizontal, girth/round measurement) . Care to be taken while taking body measurement Methods of developing design/ pattern: Drafting: Drafting tools, techniques, advantages and disadvantages of drafting. Paper pattern: Types, principles, advantages and disadvantages of paper pattern. Draping: Techniques of draping and advantages and disadvantages of draping.	PPT, Group Learning and Teaching	Gains information about the methods of developing design.	Assign. -2 and Test
4.	Nov	Preparation of fabric: Preshrinking, Straightening the grain, Pressing, Identify Face and back, Square up, Marking, Pinning, types of markings, Methods and Precautions for cutting, Sewing & Finishing Fashion: Concept, Importance and terminology {Fad, style, classic, silhouette vogue, haute couture, niche, brand}. Fashion cycle and fashion favouring and retarding factors. Figure Analysis and fitting: Figure types, Common fitting problems, reason for poor fitting and their remedies.	PPT, Group Learning and Teaching	Students understand the concept of fashion, figure types and fitting.	Revision and Tests

5.	Dec	Revision and Tests			
----	-----	--------------------	--	--	--

❖ Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. Home Science I Year (1st Semester)

Subject/ Paper: Home and Interior Decor (101) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Objectives of interior decoration, importance of elements of art in interior decoration. Types of design: structural and decorative and its application.	PPT, Group Learning and Teaching	To encourage experimentation with traditional and contemporary materials, technical processes and methods	
2.	Sept	Elements of art: line, form, texture, light, pattern, colour, space and its application in interior decoration. Principles of design: Rhythm, balance, proportion, emphasis, harmony and its application in interior decoration. Colour: Properties of colour, psychological effect of colour, color schemes and its application in the interior of a house. Lighting: a) Types and requirement for various activities b) Lighting fixtures in the home	PPT, Group Learning and Teaching	To impart knowledge and skills for making different floor plans for different income groups.	Assign. -1 and Test
3.	Oct	Table setting and table manners: Informal and formal table settings (buffet style, Indian style restaurant style, Cafe style) Furniture: Types of furniture, furniture arrangement for different areas (bedroom, drawing room, dining room, kitchen and its types) Factors affecting the selection and purchase of furniture, care and maintenance of furniture.	PPT, Group Learning and Teaching	To develop skills, abilities & knowledge that enable artistic production & creative problem solving skills.	Assign. -2 and Test

4.	Nov	Flower arrangement: Different types of Flower arrangement. Accessories used and points to be considered for flower arrangement. Flower decoration for different occasions Furnishings: a) Soft Furnishing (curtains, cushions, pillow and material for upholstered furniture) b) Wall treatment and its types c) Window treatment and decoration d) Types of floor coverings	PPT, Group Learning and Teaching	To develop and apply concepts of art & design to create aesthetically pleasing interiors.	Revision and Tests
5.	Dec	Revision and Tests			

❖ **Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.**

Designation: Lecturer (Extension Lecturer)

Class: NON Home Science (1st Semester)

Subject/ Paper: Basics of Home Science I (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): MDC-1

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Introduction to Home science: Concept and its job opportunities Basic terminology: Food, nutrients, nutrition, health, balanced diet, malnutrition (over & under nutrition),	PPT, Group Learning and Teaching	To acquire knowledge of various concepts of food & nutrition science.	
2.	Sept	Classification and Function of Food Carbohydrate, Protein, Fat: Source, Function & effect of deficiency Definition and Classification and uses of Textile fibers: (Cotton, Jute, Wool, Silk, Rayon, Nylon and Polyester). Yarn: Definition and classification (simple, novelty and complex). Sewing machine: Parts and Functions, Care and Maintenance	PPT, Group Learning and Teaching	To enable the students to have basic knowledge of textiles fibres, yarn and various stitches	Assign. -1 and Test
3.	Oct	Human Growth and Development: Meaning and concept Factors influencing growth & development Developmental milestones of infancy (0-2 years) and early childhood (3-6 years): • Physical and motor development • Social and emotional development • Cognitive and language development	PPT, Group Learning and Teaching	To have knowledge of and basic concepts related to human development	Assign. -2 and Test
4.	Nov	Resource Management - Definition and Importance. Process of time, energy and money management. Extension education: meaning and importance Qualities of an extension worker	PPT, Group Learning and Teaching	To have knowledge of family resource Management and extension education	Revision and Tests
5.	Dec	Revision and Tests

Name of Teacher: Mrs. Anita Raj

Designation: Lecturer (Extension Lecturer)

Class: B.Sc. III Year (5th Semester)

Subject/ Paper: Basics of clothing construction and apparel designing (502) (NEP)

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug	Traditional embroideries of India: list of different embroideries associated with various states of India. Origin, types, fabric used, motifs, color combinations, stitches and thread used for following: Phulkari, Kantha, Chikenkari, Chamba, Kashida, Kasuti.	PPT, Group Learning and Teaching	To get acquainted with traditional embroideries of different States of India.	
2.	Sept	Traditional textiles: list of different textiles associated with various states of India. Origin, manufacturing process, color combinations and motifs used for following: Printed textiles– Dabu, Ajrakh(Gujrat) Painted Textiles: Kalamkari(AP), Madhubani(Bihar) Resist Dyed textiles: Patola of Gujarat; Leheriya/ Bandhani of Rajasthan.	PPT, Group Learning and Teaching	To gain knowledge about traditional textiles of India	Assign. -1 and Test
3.	Oct	Woven textiles:Origin, manufacturing process, color combinations and motifs used for following · Brocade(UP) · Kanjivaram(TN) · Maheshwari(MP) · Chanderi(MP) · Mulmul (Dhaka) Floor coverings - Carpet, rugs and durries	PPT, Group Learning and Teaching	To understand the manufacturing process of woven textiles	Assign. -2 and Test
4.	Nov	Sustainable textiles: definition, principles and merits of sustainable fibers (bamboo, banana, nettle and pineapple Silk). Care labelling of textiles	PPT, Group Learning and Teaching	To know the importance and advantages of sustainable Fibres and care labels used for clothing and textiles.	Revision and Tests

5.	Dec	Revision and Tests

Name of Professor: Mrs BALWINDER KAUR
Designation: Assistant Professor
Class: B.A. Ist Semester, B.Com. Ist Sem (MDC-I-CHEMISTRY)
Subject: INTRODUCTORY CHEMISTRY-I
course code: B23-CHE-104

Months	Topics to be covered	Learning outcomes of the student	Teaching learning Strategy	Remarks if any
August	Atomic Structure and Bonding: Introduction, Elementary introduction of atomic structure and chemical bonding, Representation of elements/atoms, Lewis structure, electronic configurations (1-30)	The students will be able to get knowledge about structure and bonding.	Group Learning and Teaching	
September	Carbon and Its Compounds: Introduction, Tetravalency of Carbon, allotropes of carbon and their properties, hydrocarbons (1-5), nomenclature (linear compounds), Applications of hydrocarbons.	The students will be able to learn about hydrocarbons and their applications in day to day life.	Group Learning and Teaching	Assignment -1 and Test
October	Polymers: Introduction, elementary idea of synthetic and natural polymers, Homo polymers and copolymers, uses and properties (Natural rubber, Vulcanized rubber, Polyethene, PVC, Styrene, Teflon, PAN, Nylon-66)	The students will aware about different polymers.	PPT presentation & and	Assignment -2 Test
November	Food Preservatives: Elementary idea of natural and synthetic food preservatives, rancidity, uses and properties, different food preservation processes (pickle, Jam), artificial sweeteners, uses and properties Revision and Tests	The students will be able to get knowledge about preservative	Group Learning and Teaching

Name of Teacher: Ms Shivani Kaushik

Designation: Associate Professor of Economics

Class: BAI

Subject/ Paper: Introductory Economics (B23-ECO-103)

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): Minor

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1	AUG 2026	Scope and methods of Economics, Scarcity and choice problem Law of demand, law of supply, elasticity of demand	Lectures	Students learn the core principles of demand and supply	Assignment1
2.	SEPT 2026	Elasticity of supply, concept of cost and revenue, difference between micro and macro	Powerpoint	Students become aware of principle of cost and revenue	Test
3.	OCT 2026	Concepts of GDP, GNP , nominal and real GDP and its limitations, circular flow of income	Group Discussions	To understand the concept of national income and various methods of its measurement, aggregate demand & aggregate supply and their relevance. Understanding the different methods to calculate GDP	Assignment2
4.	NOV 2026	Monetary and fiscal policy	Presentations	To understand how governments and central banks use fiscal policy (taxes, spending) and monetary policy (interest rates, money supply) to manage the economy, stabilize it & equilibrium of goods-money market	Test
	DEC 26	Revision	Questionnaire

Name of Teacher: Ms Shivani Kaushik

Designation: Associate Professor of Economics

Class: BAII Hons

Subject/ Paper: Microeconomics II (B23-ECO-102)

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1	AUG 2026	Concepts in Consumer and producer Theory • Producer Surplus • Price, Income and Substitution Effects (Hicks and Slutsky) • Economies and Diseconomies of Scale • Isoquant and Iso-Cost Lines and Producer's Equilibrium	Lectures	To understand the concepts in consumer and producer Theory like surplus, economies, isoquants, iso-cost lines etc.	Assignment1
2 3.	SEPT 2026	Market Structure • Perfect competition (Meaning, Equilibrium of firm and industry in short run and long run). • Role of time element in price determination. • Monopoly (Meaning, Equilibrium in short run and long run). • Price discriminating monopoly.	Presentations	To understand market conditions of perfect competition, monopoly and monopolistic competition.	Test
3	OCT 2026	Monopolistic Competition (Meaning, Equilibrium of firm and industry in short run and long run). • Cournot's and Bertrand's Duopoly Model. • Kinked Demand Model. • Cartels and Price Leadership Models	Discussions	To understand few models of oligopoly.	Assignment2

4	NOV 2026	Factor Pricing • Ricardian Theory of Rent • Modern Theory of Rent, Quasi rent • Wage (Demand and Supply of Labour, Marginal Productivity Theory) • Interest (Classical and Keynesian) • Profit (Risk Theory, Dynamic Theory, Schumpeter's Innovation Theory, Uncertainty Bearing Theory)	Lectures	To understand how factor prices are determined	Test

Name of Teacher: Ms Shivani Kaushik

Designation: Associate Professor of Economics

Class: BAIV Hons

Subject/ Paper: Growth and Development Models (B23-ECO-705)

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): DSE 6

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
2.	AUG 2026	Fundamentals of Growth Models Theories and Models; Positive and Normative Theories; Concepts of Growth Rate, and Steady Growth; Purposes of Growth Models; Types of growth theory; Role of assumptions. Introduction to Economic Growth and Development: Concepts and Indicators; Importance of Growth, World Income Distribution, History of Modern Growth Theory; Growth Accounting	Lectures	Understand the basic concepts and tools used in growth models.	Assignment1
3.	SEPT 2026	Classical Theories: Adam Smith and David Ricardo; Marxian Theory of Capitalistic Development; Rostow Doctrine, Chenery's Pattern of Structural Change; The Schumpeterian theory, Dualistic Theories.	Presentations	Be aware of the perspectives of various economists on growth process and able to identify the main factors responsible for economic growth.	Test
4.	OCT 2026	Growth Models – I Instability of Equilibrium: Harrod - Domar Model; Solow's Neo-Classical Growth Model; Duesenberry's Optimum Growth Model; Models of Technical Change; Structural Change Models (Lewis), Fei-Ranis Theory.	Lectures	Understand the models dealing with the problem of instability of equilibrium growth and its solution as well as the model of optimum growth.	Assignment2

5.	NOV 2026	Growth Models – II Cambridge Models: Joan Robinson and Kaldor; Romer's Endogenous Growth Model; Convergence and Divergence controversy; Lucas Model, Kremer's O-Ring theory of Economic Development.	Presentations	Figure out the Cambridge models as well as a basic model of endogenous growth	Test

Name of Teacher: Ms Shivani Kaushik

Designation: Associate Professor of Economics

Class: B.COM II Sem3

Subject/ Paper: BUSINESS ECONOMICS (B23-COM-304)

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): Minor

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1	AUG 2026	Nature and scope of business economics, Importance of economics in business decisions. Basic Economic Concepts; Marginal analysis. Nature of demand function: law of demand, shifts in demand curve, factors influencing demand. Elasticity of demand: price, income and cross. Consumers equilibrium: Cardinal Utility Approach, Ordinal Utility approach.	Reading	Students learn about Nature and scope of business economics and demand law	Assignment1
2	SEPT 2026	Production function: short and long run-law of variable proportions; Return to factor; Law of returns to scale; economies and diseconomies of scale; Equilibrium of firm under perfect competition; monopoly - price discrimination, Price and output determination under monopolistic competition; Decisions under monopolistic competition	Lectures	Students understand the concept of production function	Test
3	OCT 2026	Non-collusive oligopoly models- Cournot and Kinked Demand Curve; Collusive oligopoly models - Cartels, price leaderships. Employment theory, classical employment theory:	Lectures	Students will learn about various markets and its functioning	Assignment2

		Keynesian theory of employment. Money definition and its functions.			
4	NOV 2026	Macro Economics: concept, nature and scope. Circular flow of income (four core sectors). National income concepts (an overview) - GNP, GDP, NNP, NDP Inflation: types and control; Money supply (monetary aggregates); Fiscal policy; Monetary policy; Business cycles and their control	Lectures Presentations	Students will learn about economy level concepts. They will learn the calculation of national income Understand the concept of inflation, fiscal and monetary policy and business cycles.	Test
	DEC 26	Revision	Questionnaire

2	सितम्बर	अपठित गद्यांश सार लिखना, किसी अंश की व्याख्या करना, कठिन शब्दों के अर्थ, लोकोक्ति-मुहावरे की व्याख्या शीर्षक बताना, तत्सम तद्भव विदेशी शब्द छांटकर अर्थ बताना इन प्रश्नों के उत्तर एक निश्चित सीमा के अन्तर्गत ही प्रस्तुत करना, उनमें अनावश्यक विस्तार नहीं होना चाहिए।	परियोजना कार्य
3	अक्तूबर	पारिभाषिक शब्दावली-बैंकिंग संबंधी शब्दावली; प्रशासन संबंधी शब्दावली; व्यवसाय सम्बन्धी शब्दावली के हिन्दी-अंग्रेजी दोनों में पूछे जाएंगे।	कक्षा परीक्षा.
4	नवम्बर	भारतीय बैंकों में हिन्दी का प्रयोग कानूनी एवं नैतिक दायित्व; व्यावहारिक स्वरूप: ग्राहक के लिए नियम; हिन्दी प्रयोग के प्रोत्साहन हेतु प्रचार बैंकों में हिन्दी टिप्पण: पत्राचार में हिन्दी का प्रयोग; व्यावसायिक पत्र लेखना संपूर्ण पाठ्यक्रम के दोहराई सभी इकाइयों में से सभी विधाओं की Practicum और Workshop करवाई जाएगी	परियोजना कार्य

Course Learning Outcomes (CLO):

1. संविधान का बोध।
2. भारतीय बैंकों में हिन्दी के प्रयोग की दक्षता।
3. अपठित गद्यांश में परिपक्वता।
4. पारिभाषिक शब्दावली का ज्ञान।
- 5° सभी विधाओं की Practicum और Workshop करवाई जाएगी।

सेमेस्टर-II

कोर्स का नाम: हिंदी भाषा में पब्लिक स्पीकिंग और लीडरशिप

कोर्स कोड: B23-HIN-206

कोर्स टाइप: SEC

कोर्स का लेवल: 200-299

क्रेडिट: 3 (2 थ्योरी, 1 ट्यूटोरियल)

क्रमांक	मास	विषय सूची	क्रियाकलाप
1	अगस्त	भाषण कला से अभिप्राय । भाषण कला का विकास एवं उपयोगिता। सफल वक्ता के गुण। विषय चयन हेतु गतिविधियाँ।	कक्षा परीक्षा.
2	सितम्बर	अच्छा भाषण कैसे लिखें। भाषण का आरंभ, मध्य एवं अंत में रोचकता कैसे। भाषण शैली का विकास कैसे करें। सफल भाषण की कसौटी एवं मंच निर्भीकता।	परियोजना कार्य
3	अक्तूबर	सार्वजनिक अभिव्यक्ति की कसौटी के विविध आयाम । नेतृत्व से अभिप्राय एवं नेता के विविध गुण। नेतृत्व एवं सार्वजनिक अभिव्यक्ति एक मूल्यांकन। सार्वजनिक बोलने के युवा वक्ताओं के लिए भाषणकला। शिक्षा के महत्व पर सार्वजनिक बोलना, मंच पर सार्वजनिक बोलने के कौशल ग्रहण, सार्वजनिक बोलने में नेतृत्व की भावना	कक्षा परीक्षा.
4	नवम्बर	हिंदी भाषा की प्रासंगिकता सार्वजनिक बोलने की कला पर विचार नेतृत्व का परिप्रेक्ष्य, बच्चों के लिए नेतृत्व और व्यक्तित्व विकास नेतृत्व भाषण, शिक्षा में नेतृत्व	परियोजना कार्य

Course Learning Outcomes (CLO):

1. संविधान का बोध।
2. भारतीय बैंकों में हिन्दी के प्रयोग की दक्षता।
3. अपठित गद्यांश में परिपक्वता।
4. पारिभाषिक शब्दावली का ज्ञान।

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	August	Social Media Marketing: Meaning and significance in modern era; Impact of social media platforms- Facebook, LinkedIn, Twitter, Instagram, Pinterest, and YouTube on Marketing endeavours; Problems associated with Social Media Marketing.	Group learning & teaching Individual learning Use of smart board and black board	Understand the significance and challenges of social media marketing.	
2.	September	Social Media Planning: Social media goals and objectives; Audience analysis; Developing social media marketing strategy; Social media control; Integrating marketing strategy with social media marketing strategy.	Group learning & teaching Individual learning Use of smart board and black board	Develop a comprehensive social media marketing strategy	

3.	October	Social Media Content: Content Creation, Audience Engagement; Content Scheduling; Content Management and Control.	Group learning & teaching Individual learning Use of smart board and black board	Create and manage engaging social media content.	
4.	November	Social Media Advertising and Analytics: Tools for social media Advertising; Planning and executing social media campaigns; An Overview of social media analytics tools.	Group learning & teaching Individual learning Use of smart board and black board	Utilize social media advertising tools and analyze campaign performance.	

❖ **Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.**

Name of Teacher: Ms. Honey Garg

Designation: Assistant Professor in Commerce

Class: B.Com-I (B)

Subject/ Paper: Business Management

Type of Course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug. 26	Introduction to Management: characteristics and significance, process and functions of management; Management: as science, art and profession Approaches to management: Classical and neo classical approach, behavioural approach, management science approach, systems approach and contingency approach; Emerging management concepts	Group Learning and teaching , Presentations of students and Frequent Class tests	Gain knowledge about the conceptual framework of business management and Know about the development of management thoughts and knowing the emerging management thoughts	
2.	Sep. 26	Planning: process and importance; Types of plans: Policy, programme, strategy, vision, mission, goals and objectives, Organizing: Principles and benefits of organizations; Organizational structure: Functional, line and staff, matrix, formal vs. informal; Organizational structure for large scale business organization, virtual organization; Delegation: Advantages, barriers to delegation, guidelines for effective delegation	Group Learning and teaching , Presentations of students and Frequent Class tests	Understand the concept of planning, organisational structure, utility and application of organizing functions of management	
3.	Oct. 26	Decentralization and Centralization: Advantages and disadvantages: Factors influencing decentralization; Staffing: Importance, scope and modes of staffing; Directing; Motivation: Objectives and significance; Approaches to motivation	Group Learning and teaching , Presentations of students and Frequent Class tests	Assimilate and use the concepts of delegation. Decentralization, directing, staffing and motivation in organization.	
4.	Nov. 26	Leadership: Significance and functions; Leadership styles; Approaches to leadership; Coordination; Controlling: Characteristics and process of control, prerequisites of an effective control system, controlling techniques	Group Learning and teaching , Presentations of students and Frequent Class tests	Comprehend the concept and applications of leadership styles, Co-ordinating and controlling practices in organisations	
5	Dec. 26	Revision of Syllabus

Name of Teacher: Ms. Honey Garg

Designation: Assistant Professor in Commerce

Class: M.Com-II

Subject/ Paper: Management of Industrial Relations

Type of Course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug. 26	Industrial relations: Concept, scope determinants, historical developments ,Models of Industrial relations; Industrial relations in India: Managing industrial relation changes, industrial relations and productivity, factors affecting Industrial relations; Role of trade unions, government, technology and culture, effective communication systems and Industrial relations management.	Group Learning and teaching , Presentations of students and Frequent Class tests	Understand the scope, and determinants of industrial relations and learn about industrial relation management	
2.	Sept. 26	Trade unionism: Meaning and theories; Trade unions: Purpose, functions, structure, social responsibility, and multiplicity of trade unions; Union management relations: Factors affecting union management relations, public policies, role of State, Constitution, ILO and authorities under Industrial Disputes Act, 1947; Conflict resolutions; Industrial relations machinery in India: Provisions under the Act, powers and duties of authorities, methods of Industrial disputes resolution; Forms of industrial conflicts.	Group Learning and teaching , Presentations of students and Frequent Class tests	Learn about management of union relationships, Constitution, ILO and authorities under Industrial Disputes Act, forms of industrial Conflict and its resolution	

3.	Oct. 26	Employee counselling and grievance redressal machinery; Employee counselling: Types, methods, industrial relations strategies, workers development and participation; Discipline and grievance redressal : Nature of grievances, conciliation, arbitration and adjudication; Collective bargaining: Bargaining process, strengths and skills.	Group Learning and teaching , Presentations of students and Frequent Class tests	Know how to handle employee counselling, grievance redressal machinery.	
4.	Nov.26	Industrial democracy: Concept and scope, workers participation, strategies for making participation effective; Comparative industrial relations: Objectives, significance, principles and variables of comparative analysis, comparative industrial relations and policy in developing countries; Labour welfare and administration; Indian constitutional provisions in relation to labour administration.	Group Learning and teaching , Presentations of students and Frequent Class tests	Understand and manage industrial democracy and compare industrial relations systems across different countries.	
5.	Dec. 26	Revision of Syllabus

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Ms. Honey Garg

Designation: Assistant Professor in Commerce

Class: B.Com-IV (H)

Subject/ Paper: Organisational Behaviour

Type of Course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug. 26	Organizational behaviour: Concept, significance, relationship with other disciplines; Approaches to organizational behaviour; challenges and opportunities for organizational behaviour; Personality: Concept, determinants and theories; Big five personality traits, The Myers Briggs type indicators, self-theory, personality traits influencing OB; Psycho-analytical, Social learning, situation strength, traits activation; other personality traits influencing OB; Implication of personality for managers.	Group Learning and teaching , Presentations of students and Frequent Class tests	Understand conceptual framework of OB and apply the knowledge of personality in the context of organizations.	
2.	Sept. 26	Learning: Concept, process, principles: Theories of Learning: classical. operant conditioning. social, cognitive. Learning through reinforcement. Organizational behavior in learning organization: Attitude: Concept, components, formation, changing of attitude, work related attitude: Perception: Concept, process perceptual selection. factors influencing perception, perceptual organization and interpretation, perceptual distortion, attribution process: Implication of perception for managers.	Group Learning and teaching , Presentations of students and Frequent Class tests	Understand the behavior of individuals in organizations in terms of learning, attitude and perception.	
3.	Oct. 26	Foundations of group behavior. Group dynamics- Concept, functions. type of groups, group dynamics norms, role, status, size of leadership. composition proxemics, stages of group development; Group cohesiveness; Group decision making: Transactional analysis: Concept. scope, components and benefits of transactional analysis.	Group Learning and teaching , Presentations of students and Frequent Class tests	Interpret and make use of the key concepts with regard to group behaviour and transactional analysis.	

4.	Nov. 26	Organizational conflicts. Concept, types and sources of conflict. conflict process, functional and dysfunctional aspects of conflicts. levels of conflict, conflict management and negotiations. Management of change: Concept causes of change, types of planned and unplanned change, resistance to change, models of managing planned change: organizational development: Concept, benefits, process, effectiveness and limitations, techniques. Action research organization development and change model	Group Learning and teaching , Presentations of students and Frequent Class tests	Handle conflicts and change management in organizational context.

LESSON-PLAN (Session 2026-27) ODDSEMESTER

Name of Teacher: Ms. Priyanka

Designation: Assistant Professor of Commerce

Subject/ Paper: Tourism business

Course Code- B23-VOC-134

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): VOC

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	Aug 2026	Tourism terminology: Tourism, tourist, visitors, traveller, excursionist as per UNWTO classification, Characteristics of tourism services, components of tourism, types and significance, domestic tourism development in India	Individual Learning	Students understand the concept of Tourism	Test
2.	SEPT 2026	Tourism as an Industry: Performance and prospects of tourism in India over the years, Role of UNWTO, PATA, IATA, TAAI, IATO Factors responsible for growth and development of tourism of the global level, impacts of tourism economic, socio-cultural and environmental,	Peer Teaching	Students come to know about Performance and prospects of tourism in India Students learn the impacts of tourism economic, socio-cultural and environmental	Assignment1
3.	OCT 2026	Security and safety issues in tourism: impact of liberalisation, globalization and privatisation in tourism industry. Tourism type: International and domestic tourism, hard and soft tourism	Lectures	Students understand the impact of liberalisation, globalization and privatisation in tourism industry	Assignment2
5.	NOV 2026	Pilgrimage tourism, adventure tourism, eco-tourism, green tourism, heritage and cultural tourism, senior citizen tourism, village tourism, sustainable tourism, MICE tourism and wellness tourism and revision	Group Learning	Students understand the various types of tourism	Test

Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.

GOVT. P.G. COLLEGE FOR WOMEN, SECTOR-14, PANCHKULA

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Kanchan Bala

Designation: Associate Professor

Class: MSC Mathematics 1st sem

Subject/ Paper: Complex analysis

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students
1.	August	Analytic functions; Harmonic functions; Reflection principle; Elementary functions: Exponential, Logarithmic, Trigonometric, Hyperbolic, Inverse trigonometric, Inverse hyperbolic, Complex exponents; Complex Integration: Definite integral; Contours; Branch cuts	Group learning and teaching, learning through problem solving	Understand the concepts of limit, continuity, differentiation and integration for functions defined over a complex plane as well as for the elementary functions
2.	September	Cauchy-Goursat theorem; Simply/ multiply connected domains; Cauchy integral formula; Morera's theorem; Liouville's theorem; Fundamental theorem of algebra; Maximum modulus principle; Power series: Taylor series; Laurent series; Uniform/ absolute convergence.		Solve the complex integrals of various kinds through the applications of relevant theorems, formulae and power series expansions

3.	October	Differentiation. integration, multiplication, division of power series; Singularities; Poles; Residues; Cauchy's residue theorem; Zeros of an analytic function; Evaluation of improper integrals; Jordan's lemma.		Analyse the complex functions with singularities for zeroes and residues at poles and apply the results to solve the improper integrals.
4.	November	Indented paths; Integration along a branch cut; Definite integrals involving sines and cosines; Winding number of closed curve; Argument principle; Rouché's theorem; Schwarz Lemma ; Transformations: linear, bilinear (Möbius), sine, z^2 , $z^{1/2}$; Mapping: Isogonal; Conformal; Scale factors; Local inverses; harmonic conjugates		Solve complex improper integrals through the indentation, transformation/mapping of integration paths so as to avoid singularities and branch points/cuts.

❖ **Seminar/Presentation/Assignment/Quiz/Class Test /Mid-Term Exam will be taken as per schedule.**

GOVT. P.G. COLLEGE FOR WOMEN, SECTOR-14, PANCHKULA

LESSON-PLAN (Session 2026-27) ODD SEMESTER

Name of Teacher: Kanchan Bala

Designation: Associate Professor

Class: MSC Mathematics 3rd sem

Subject/ Paper: Functional analysis

Type of course (major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students
1.	August	Normed linear spaces, Banach spaces, finite dimensional normed spaces and subspaces, equivalent norms, compactness and finite dimension, F.Riesz's lemma. Bounded and continuous linear operators, differentiation operator, integral operator, bounded linear extension, bounded linear functionals, normed spaces of operators, dual spaces with examples.	Group learning and teaching, learning through problem solving.	Know about the requirements of a norm; completeness with respect to a norm; understand relation between compactness and dimension of a space; check boundedness of a linear operator and relate to continuity; convergence of operators by using a suitable norm; apply the knowledge to compute the dual spaces.
2.	September	Hahn-Banach theorem for normed linear spaces, application to bounded linear functionals on $C[a,b]$, Riesz-representation theorem for bounded linear functionals on $C[a,b]$, adjoint operator, norm of the adjoint operator. Reflexive spaces, uniform boundedness theorem and some of its applications to the space of polynomials and Fourier series.		Extend a linear functional under suitable conditions; apply the knowledge to prove Hahn Banach Theorem for further application to obtain the representation of bounded linear functionals on $C[a,b]$; know about adjoint of operators; understand reflexivity of a space and demonstrate understanding of the statement and proof of uniform boundedness theorem.

3.	October	Strong and weak convergence, open mapping theorem, bounded inverse theorem, closed linear operators, closed graph theorem. Inner product spaces, Hilbert spaces and their examples, Schwarz inequality, continuity of inner product, orthogonal complements and direct sums, minimizing vector, orthogonality, projection theorem, characterization of sets in Hilbert spaces whose span is dense.		Know about the notions of strong and weak convergence; understand open mapping theorem, bounded inverse theorem and closed graph theorem; distinguish between Banach spaces and Hilbert spaces; decompose a Hilbert space in terms of orthogonal complements.
4.	November	Orthonormal sets and sequences, Bessel's inequality, series related to orthonormal sequences and sets, total (complete) orthonormal sets and sequences, Parseval's identity, separable Hilbert spaces. Riesz representation theorem for bounded linear functionals on a Hilbert space, sesquilinear form, Riesz representation theorem for bounded sesquilinear forms on Hilbert spaces. Hilbert-adjoint operator, its existence and uniqueness, properties of Hilbert-adjoint operators, selfadjoint, unitary and normal operators.		Understand totality of orthonormal sets and sequences; represent a bounded linear functional in terms of inner product; classify operators into self-adjoint, unitary and normal operators.

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): Major

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	AUG 2026	The Indian contract Act, 1872: Definition, essential elements and types of valid contract, offer and acceptance, consideration, capacity of parties, free consent	Individual Learning	Students understand the concept of Contract Act	Test
2.	Sept 2026	Legality of object and consideration, void agreements, contingent contracts, performance of contracts, discharge of contract, remedies for breach of contract	Peer Teaching	Students come to know about the consideration, performance of contracts, discharge of contract, remedies for breach of contract	Assignment1
3.	Oct 2026	Contracts of indemnity: definition, rights and liability, contract of guarantee: definition, consideration, contract of indemnity vs contract of guarantee.	Reading	Students learn the role of contract of indemnity vs contract of guarantee.	Test
4.	Nov 2026	Bailment and pledge. Agency: definitions of agents and principal, kinds of agents, creation of agency	Lectures	Students understand the concepts of Bailment and pledge and Agency	Assignment2
5.	Dec 2026	Duties and rights of agent and principal, termination of agency, power of attorney. Revision	Group Learning	Students understand the Duties and rights of agent and principal, termination of agency	Test

Designation: Assistant Professor of Commerce

Subject/ Paper: Accounting Data Processing (B23-SEC-315)

Type of course(major/ minor/ VAC/ AEC/SEC/ MDC): SEC

S. No.	Month	Topics to be covered	Teaching Learning Strategy	Learning Outcomes of Students	Remarks
1.	AUG 2026	Basics of Accounting: Meaning, advantages and limitations; Fundamental accounting assumptions: GAAP; Computerized accounting system: Concept, need, difference between manual and computerized; Tally: Introduction, features, installation; Licensing configurations.	Lectures	Students understand the basic concepts of accounting and practical aspect of accounting with the help of software Tally Prime	Test
2.	SEPT 2026	Security controls in Tally Prime: Tally vault password, data backup and restore, export and import data, edit log feature in tally; Masters: Concept , types of masters, groups; Gateway of tally; Company creation: Setup features, accounting features, configuration, shutting and deleting a company.	Group Discussions	The candidate will be able to create a company, make journal entries.	Assignment1
3.	OCT 2026	Ledger creation: Creating single and multiple ledgers, altering; Deleting and displaying ledger; Invoicing; Cost centers; Interest calculations; Inventory: Stock groups, stock categories, stock items, purchase and sales orders processing, godowns/location, unit of measurement; BoM; Vouchers: Concepts, accounting & inventory vouchers.	Reading	The candidate will understand ledger creation, and inventory management.	Test
4.	NOV 2026	Financial Statements: Profit & loss account, balance sheet; Bank reconciliation; Debit and credit note; Tally audit features; Printing features; Management information system & different reports in tally.	Lectures	Maintain business records with financial statements and other business operations.	Assignment2
5.	Dec 2026	Practical: Installation of Tally; Configuration; Creating company, security controls; Accounting voucher entries; Stock summary: Trial balance; Final accounts in Tally; Trading account Profit & Loss account; Balance sheets; Creating, printing reports.	Lectures and Presentations	Practical applicability of Tally Prime in business and companies.	Test
